

Mr. John W. Meng, 54 Jefferson Ave., Indianapolis, Ind., State Representa-tive of Indianapolis Business College, writes:

"I firmly believe that I owe my fine health to Peruna. Constant travel and change of food and water wrought havoc with my stomach, and for months I suffered with indigestion and catarrh of the stomach. I felt that the only thing to do was to give up my occupation which I felt very reluctant to do. Seeing an ad. of Peruna as a specific for catarrh I decided to give it a trial, and used it faithfully for six weeks, when I found that my troubles had all disappeared and I seemed like a new man. I have a bottle of Peruna in my grip all the time, and occasionally take a few doses which keeps me in excellent health." John W. Meng,

LAUGHING GAS AND MUSIC. A Chicago Musical Dentist Pulls Teeth

to Three Four Time.
"Laughing gas with music" is the by an enterprising Chicago dentist.

"Tooth-puiling a pleasure—a band concert with each extraction," is the motto of this dentist. Street pianos avoid the block in which his office is situated, for out of the windows float the strains of "Mr. Dooley," "The Holy City," and rollicking airs from "The Prince of Pilsen," instead of the shricks and groans of patients.

"Which tooth?" asks the dentist of prospective patient. "Ah, this one" Looks like a stubborn one. Oh. no. it won't hurt a bit. What did you say your favorite opera was?"

At this point the new patient gets restless and, with the rubber dam in his mouth, gurgles something about "looking for a dentist, not a theater." With the air of an impresario, a Fanciulli or a Sousa, the dentist moves about his work. The gas bag is brought out, and with it a mysterious box with long tubes attached.

"There's Only One Girl" begins to be ground out and the patient passes away, and when he awakes the tooth is out and there is surprise at seeing the blazing sun instead of the falling curtain of an opera. "It's great," said the dentist, "but

it sometimes causes strange fancies among my vic-er-patients, I mean. One man attempted to throw violets on the stage when he heard 'The Melancholy Marshmallow.' It takes only a few gulps of gas and the soothing influence of 'The Palms' to put the most nervous patient in shape for operation. "No, I can't say-that Gottschalk's 'Last Hope' or the 'Swan Song' is popnlar. There's too much feeling in them. Take a sweet, impressionable young woman, with dreamy blue eyes

and fluffy hair, and I turn on 'There's Nobody Just Like You.' Effect! Well, should say so. Just a gulp or two and I can pull every tooth in a mouth Sometimes they even want encores and are willing to sacrifice another tooth just for the concert and the gas effect. "For the voungsters I have some lively, catchy music. After I pulled four molars for a boy the other day he woke up and asked me which way the circus parade had gone. "The music soothes the patients and

they are more readily affected by the gas. They do not hear the noises of the street, and, fixing their thoughts on the music, they do not fight against the gas and become unconscious more quickly. The therapeutic value of music in dentistry is now recognized."-Chicago Inter Ocean.
